Hot Outside. Cool inside.

Summer temperatures now won't affect your water's temperature. Introducing RotoPlus Suraksha Advance. A water tank built with a unique foam layer that keeps water cool even in 45°C*.

How does it work?

RotoPlus Suraksha Advance comes with an additional foam layer which helps to keep the water temperature lower between 13°C to 15°C, even in temperatures as high as 45°C outside.

RotoPlus Suraksha Advance Dimensions

Capacity (Litres)	Diameter (mm)	Height (mm)	Diameter of Manhole (mm), Rim to Rim
500	887	960	400
700	1000	1037	400
1000	1115	1188	400
1500	1282	1334	400
2000	1368	1552	470

+Dimensional tolerance ± 5 mm

Disclaimer: Product color and image shown in this document are for illustration purpose only and may vary from the actual product. Every effort has been made to ensure factual accuracy and believed to be accurate and reliable, however no responsibility can be accepted for any error, omissions or incorrect assumptions. RotoPlus reserves the right to make any necessary specification changes without any prior notice. Features will vary model to model. *For detailed term and conditions please refer warranty and installation card. *Lab tests have revealed that RotoPlus six-layer water tank can help to maintain a temperature lower by 13°C to 15°C between stored water and the ambient temperature of 45°C. The foam layer imparts insulating effect to the tank which helps to keep the temperature of stored water lower than the ambient in summers. *Terms and conditions apply. *For more details, please visit www.Ultrtexpipes.com. *Tested and validated by accredited third party lab.
